Summary

I am Philani Manana who is 23 years old. I stay in Durban and I am highly willing to relocate if an opportunity come. I studied in Durban University of Technology. I graduated with a Degree of Information and Communication Technology (ICT).

I majored with software development and I am currently seeking for an Internship/leanership which can help me to grow and sharpen my skills in Software development.

I am a self-motivated person who is passionate about IT and I am always willing to learn more technologies and apply my skills.
